CATCHMENT SENSITIVE FARMING

Action for the River Kennet

The Campaign for the Farmed Environment (CFE) helps farmers and land managers choose the **right** environmental measures, put them in the **right** place and manage them in the **right** way - to protect soil and water, preserve and protect habitats and benefit wildlife.

Action for the River Kennet (ARK) works with farmers and other stakeholders in the Kennet catchment to improve the river and its tributaries.

Catchment Sensitive Farming (CSF) delivers practical solutions and targeted support to enable farmers and land managers to take voluntary action to reduce diffuse water pollution from agriculture.

You are invited to attend a FREE event at one of the following COVER CROP demonstration sites
